Harold G. Sallee, P.E.

Harold is comfortable providing engineering in almost all facets of project design. His primary discipline is electrical engineering, where he specialized in evaluation, design, and construction of renovated and new primary electrical services, secondary side power systems, and specialty systems. Harold has developed design criteria for specialty installations ranging from intercom, phone, and data communications to fire alarm and security systems.

Harold has extensive experience in construction services which includes; checking shop drawings; solving construction related conflicts; expediting design changes during construction; evaluating deficiencies and producing comprehensive site observation reports; reviewing pay estimates; and administering project close-outs. Harold brings an unchallenged level of quality control review to all projects for which he is responsible.

Harold's success lies in conscientious design and project management, supported by his multi-discipline engineering expertise on projects, which include several types of systems and concerns.

Below is a representative sampling of Harold's project experience:

KCP&L District Kansas City, MO

- MEP design of several blocks in the downtown entertainment district, including retail spaces, parking garage, restaurants and clubs.

Eagleton Courthouse St. Louis, MO

- Study of Plumbing and HVAC Systems
- Outside Air Intake Study and Design
- Elevator and Fire Safety Upgrade

New Richmond High School Richmond, MO

- MEP design for new 130,000 sqft. School

REGISTRATION:

Kansas, Missouri, Nebraska, Pennsylvania, Utah, Virginia.

EDUCATION:

Bachelor of Science,
General Engineering
University of Missouri, 1969

AFFILIATIONS:

Illuminating Engineers Society of North America (IES)
National Society of Professional Engineers (NSPE)
National Fire Protections Assoc. (NFPA)
American Society of Heating Refrigeration and Air-conditioning Engineers (ASHRAE)

Olathe Detention Center Audit Olathe, KS

- Provided Mechanical & Electrical engineering services for the cooling upgrades and controls replacement.

City of Kansas City Kansas City, MO

- New Fire Station #19 (design-build) designed to "Silver" LEED rating.
- Fire Station #23 Renovation included new electrical service and parking areas.

KC Urology - Block Medical Plaza Building I - Overland Park, Kansas

- ME design of new 10,000 sqft. office and 2,000 sqft. addition for linear accelerator .

University of Kansas Lawrence, KS

- New Anschutz Library

Tamko Roofing Products Joplin, MO

- HVAC and electrical upgrades
- Emergency generators

Calmar-Wuxi Wuxi, Jiangsu, China

- Design of new manufacturing plant.

Providing Professional Engineering Services since 1979
