Randall D. Frymire, P.E.

Randy has been working as a consulting engineer for over 24 years. His focus of consulting has been in industrial, hospital, institutional and laboratory facilities. His work in those facilities includes; project management and planning, studies and analysis, engineering and design of mechanical and electrical systems, value engineering reviews, and construction administration.

Randy has experience in managing multi-discipline design projects as the prime consultant. He has provided services in many forms to meet the owner's needs. He has produced performance specifications, biddable design documents, and facility criteria manuals for design build type projects. Randy's commitment to the entire construction process has gained him experience to provide the project from, conception through the post construction evaluation.

Randy has completed energy studies, system audits, value engineering reviews, and designs for HVAC systems, hydronic systems, fire alarm, sprinklers, plumbing systems, electrical distribution, and communication systems. Randy has recently completed housing related projects and studies involving college dormitories, long term care facilities and renovation of high rise buildings into apartments and condominiums in downtown Kansas City.

Below is a representative sampling of Randall's project experience:

Johnson County Jail - New Century, KS

- MEP Design Services for new Jail & Sheriff's Facility

Joplin Justice Center - Joplin, MO

- Detention Facility, Police Department and Fire Station Building renovations

City of Independence - Independence, MO

- HVAC System Upgrade and Replacement for three buildings

McDonald County Schools - Anderson, MO

- ME design for several schools

REGISTRATION:

Missouri, Ohio, Alabama

EDUCATION:

BSME/Mechanical Engineering
Value Engineering Module I Workshop

AFFILIATIONS:

Society of American Value Engineers (SAVE)
American Society of Heating, Refrigeration, Air Conditioning Engineers (ASHRAE)

H & R Block Headquarters

Kansas City, MO

- New 18-story approx. 500,000 sqft. high-rise building (comprised of offices and core areas, tier 3 plus data center, food service, lobby area, mailroom, generator room, service and dock area and an underground fuel storage tank).

MSSU Mansion & Learning Center

- MEP services for renovation.

Pier One Imports

Ward Parkway Mall - Kansas City, MO Shawnee Mall - Shawnee, KS

- MEP Design services for new stores.

AMC Theaters - Kansas City, MO

- MEP Design services for a new and a remodel theater.

32nd Street Doctors Office Building Joplin, MO

- ME design of new doctor's office building with surgical suite.

VA - Cameron, Missouri

- MEP Design services for Long Term Care Housing

Missouri National Guard Armory Joplin, Missouri

- MEP services for renovation and extension to existing armory.

Providing Professional Engineering Services since 1979
